

plano key facts

2022

Patient Micah is photographed for an educational communication to patient families about what to expect during a fluoroscopy procedure.

our mission: **make life better for children**

Children's HealthSM is dedicated to providing quality health care to the growing number of families in North Texas and beyond. Fifteen years ago, we built Children's Medical Center Plano as the first dedicated pediatric hospital for families in the region north of Dallas. As the leading health care provider for children in North Texas, we are committed to growing with the pace of this region's rapidly increasing pediatric population and continually evolving to advance the care we provide.

We look forward to expanding that care to many more children and families as we invest in the Plano campus, our specialties and the surrounding communities.

Plano Chamber of Commerce
Named Outstanding Corporate Citizen in 2021, in recognition of community involvement and support, contributions to the local economy, leadership and excellence in customer service

National Association of Epilepsy Centers
Accredited as a Level 3 Epilepsy Center, offering a comprehensive approach to the diagnosis and treatment of epilepsy

expanding care for kids

When we first broke ground on the Children's Health Plano campus on Oct. 26, 2005, we did so with the promise to care for the children in the community and to grow alongside them. On Oct. 26, 2021, we reaffirmed our promise as we broke ground on an expansion that will allow us to provide enhanced specialty care to the children of today, tomorrow and many future generations. We look forward to welcoming patients and families into our expanded space in late 2024.

Our expanded facilities will include:

- 395,000-square-foot patient tower with 140 new inpatient beds, bringing our total hospital beds to 212
- Modern patient rooms designed with input from patients, families and our care team
- 650-car parking garage for staff and families
- Bright Family Emergency Room - an updated and nearly doubled emergency care space with 48 exam rooms
- New capabilities in our Pediatric Intensive Care Unit and increased capacity to 38 beds
- Expanded diagnostic and therapeutic services to serve the growing complexity of our patient needs
- Outdoor park space for families to relax amid the comforts of nature
- Enhanced service offerings and care capabilities in Cardiology, Oncology, Gastroenterology, Orthopedics, Neurology and more, offering surrounding communities the opportunity to receive **world-class, critical and highly specialized care closer to home**
